## BRING SMITH HERE TO FACE MURDER COUNT

Elmo Smith will observe his 40th birthday Friday in the Adams County Jail in which he was lodged this morning at 8:10 o'clock to await trial for murder next week in the Adams County Court. Montgomery County Sheriff Peter J. Riley, with two assistants, Andrew White, warden of the Montgomery County Jail, Norris-town, and Deputy Morton Bailey, brought him here in an auto.

Smith, accused of slaying of a 16-year-old Philadelphia area school girl, was calm as he answered the questions of Turn-key Fred Swisher who filled out the usual form for all prisoners listing their name, age, height, address, etc.

Riley told Sheriff Dawson Miller he would recommend that Smith not be permitted to join the other prisoners. He said at the Montgomery county jail he "did not mingle with the population."

**Normal Procedure**

Normally prisoners in the Adams County Jail have the run of the hallway between the tiers of cells during the day, but each is returned to his individual cell at night.

Smith had also gone to the exercise yard at Norris-town at times when it was not being used by other prisoners.

Smith, in shirt sleeves, seemed surprised when jail attendants here asked for his necktie. In Adams County Jail neckties of prisoners are kept in the office safe while the prisoners are in the jail block.

When asked his age Smith replied "39, I'll be 40 tomorrow."

## POLICE CHECK HITCH-HIKER'S ROAD INJURY

Maryland State Police are still working with thin leads today in an effort to apprehend the driver of a tractor-trailer which struck and injured a hitch-hiker North Carolina on the southern edge of Emmitsburg on U.S. 15 about 5:30 a.m. Wednesday.

Rushed to the Annie Warner Hospital in the Emmitsburg ambulance was Bernard J. Peffley, 18, of Jacksonville, N. C.

Examination showed Peffley suffered contusions of the chest, two fractured ribs on the left side, minor fracture of the vertebrae of the back, contusions and abrasions of the left forearm. He was transferred by ambulance Wednesday at 4:20 p.m. to the Bethesda Naval Hospital.

**Red Paint Traces**

State Police said that the vehicle which struck the hitch-hiker was probably painted red since traces of red paint were found on the shirt of the injured youth.

Tfc. Henry I. Stafford, who is investigating the accident, said Peffley was walking along the southbound lane of U.S. 15 at the southern edge of Emmitsburg when he was struck by the tractor-trailer.

Cries for help from the injured youth caught the attention of Dr. George W. Green Jr., county veterinarian, who lives along the road where the accident happened.

**Foggy Area**

Green reportedly notified the Emmitsburg police who in turn notified the State Police.

Police added that it was foggy in the area where the accident occurred Wednesday morning and it could be that the tractor-trailer driver did not see the pedestrian and did not know he hit the youth.

Although the youth was only half-conscious, police said they were able to learn that the boy was heading back home after visiting an uncle in Hershey, Pa.

Emmitsburg Officer Robert Koontz is assisting Trooper Stafford in the investigation.

## Violinists Hold Reunion

Dr. F. William Sunderman, Philadelphia (right), shows his "The Irish" Stradivarius to Henry M. Scharf, president and manager of Hotel Gettysburg. Scharf studied violin under Dr. Sunderman during the latter's undergraduate days at Gettysburg College in 1917-18-19. Though only a student at Gettysburg High School, Scharf was a member and played "first-chair" in the college concert orchestra during the three years it was directed by Dr. Sunderman. The photograph was taken in Brua Lounge following the afternoon session of the American String Teachers Association workshop in which Dr. Sunderman and his son, Joe, are participating. Dr. Sunderman and Paul Rolland are the featured artists in the workshop concert Friday evening. There is no admission and the public is invited. (Times Photo)

## Dr. Sunderman's Stint With ASTA Brings Back Campus Music Memories

Though he is not a member of the faculty nor even a music teacher, Dr. F. William Sunderman, Philadelphia, is not only one of the most enthusiastic participants in the American String Teachers Association workshop being conducted this week at Gettysburg College, but he is virtually bursting with pride over the success of the workshop which he was instrumental in bringing to Gettysburg.

A native of Juniata, "Bill" Sunderman was a musical star during his undergraduate days in the Gettysburg campus 1915-1919. A talented musician he led the college band in 1917-18 when the entire student body was inducted into the Army under the SATC program. He also achieved wide prominence as leader of the college concert orchestra during his last three years in college. Under his direction the orchestra became a top-flight organization which, together with the glee club, made annual two-week concert tours. Besides conducting the orchestra, he was featured on the concert program as violin soloist.

Required to work his way through college, Sunderman taught violin; had a dance orchestra with the enticing name "Sunderman's Jazzierinas" which was popular at the college and in surrounding towns; led the orchestra that played for the "five-reelers" on Friday and Monday nights in the old Walters theater, and on Sunday mornings led the Sunday School orchestra at the College Lutheran church and later at the St. James Lutheran Church.

He came to Gettysburg College under a half-scholarship, valued at \$50 annually, in return for which he played in chapel each morning and arranged the music for chapel services.

Despite his heavy schedule Sunderman was a top-flight student. When the local campus chapter of Phi Beta Kappa was founded several years after his graduation, he was among the alumni elected to membership.

**Medical Expert**

Following his graduation in 1919, Sunderman entered University of Pennsylvania Medical School and, in addition to his studies there, he studied violin at the Coombs Conservatory of Music.

He won eminence in the medical field.

## Cuban Navy Purge Likely After Rumors Of Revolt

**By RICHARD VALERIANI**

HAVANA (AP)—A sweeping reorganization of the Cuban navy appeared certain today in the wake of reports that the Castro brothers had smashed a naval plot against their regime.

Government silence prevented official confirmation of persistent reports that Castro agents had infiltrated a group of dissident naval officers at the Casa Blanca base across the way from Havana and uncovered a plot to revolt or defect with two of Cuba's three modern frigates.

Armed forces headquarters denied anything was afoot, but informants insisted about 300 men had been arrested on charges of plotting.

## Deny Arrest

Reports that Navy chief Juan Castineira was under arrest were denied officially, but his whereabouts was a mystery.

## Powers' Attorney Hopes For Leniency Because Of His Behavior During Trial

### By STANLEY JOHNSON

MOSCOW (AP)—Francis Gary Powers' Russian defense attorney expressed hope today the Soviet military court trying the American U2 pilot will be lenient with him.

The attorney, Mikhail I. Griniov made the comment as the trial ended its second day with testimony of Soviet experts who attacked Powers' contention that he was only a pilot acting under orders and not a true spy.

Griniov told Powers' family he based his hope for leniency on the pilot's behavior during his trial, together with his expressed regret and repentance over the May 1 flight that landed him in Russian hands, 1,200 miles inside the Soviet Union.

### "True Repentance"

Griniov is a court-appointed attorney, and the informal view he expressed could reflect official Soviet thinking.

The Moscow radio was telling its listeners today that Powers shows signs of true repentance, and "this makes a clear distinction between him and those who

## WIFE WILL GET \$14500 YEARLY FROM ALIMONY

The Adams County court has directed that Eugene Walter Zimmerman, Mechanicsburg R. D., owner of the Holiday East and West Motels, pay his wife, Eleanor Zimmerman, Gettysburg R. D., Straban Twp., \$14,500 a year as alimony pending decision on the divorce action she has brought against her husband.

In its order, the court said: "The rule for alimony pendente lite and council fees is made absolute, and taking into consideration the station in life of the parties and the manner in which they lived, as well as the ability of the defendant to pay, it is ordered and decreed that the defendant, Eugene Walter Zimmerman, pay to the plaintiff, Eleanor Zimmerman, alimony pendente lite in equal monthly installments at the rate of \$14,500 per year beginning as of December 19, 1959, which amount includes estimated income taxes of the plaintiff in the amount of \$3,700 a year, with credit for any amounts paid since that date and to pay into Brown, Swope and MacPhail, Esquires, (the law firm representing Mrs. Zimmerman) the sum of \$500 on account of counsel fees."

The court also handed down an order directing that Zimmerman's income tax returns from 1954 to 1958 be impounded. The order held that since the income tax returns were used by the court in determining the amount of alimony, they must be considered as part of the record in the event of an appeal but directed that the returns should not be filed with the public records, but should instead be impounded.

Mrs. Zimmerman in her divorce alleges indignities and infidelities since July 4, 1958. The couple wed in Johnstown April 8, 1950. In the various hearings held since the divorce and request for alimony began, Mrs. Zimmerman claimed, according to her petitions, that her husband had an income of \$85,000 per year. Zimmerman said his income was \$38,000.

## DEMOLISHES CAR MISSING MAN ON ROAD

Frederick V. Knox, 43, Blue Ridge Summit, rolled his station wagon over this morning at 3:10 o'clock one mile west of here on the Fairfield Rd. to avoid hitting a man weaving across the highway on foot.

The vehicle was demolished. Knox suffered lacerations of the scalp and left ear and was treated at the Warner Hospital.

Police said they had received a call shortly before 3:10 o'clock this morning from a resident along the Fairfield road who reported that a "drunk is walking along the highway."

### One To Hospital, One To Jail

Moments later the woman who had called police the first time called back to say that someone had rolled a car over in an attempt to avoid the pedestrian.

Police, enroute by this time, found a 63-year-old man sitting in the middle of the highway upon their arrival. They found Knox's car off the north berm of the road after rolling over.

The officers took Knox to the Warner Hospital for treatment and brought a charge of disorderly conduct against the pedestrian.

Police said they understood the man to say his name was Ernest DeBeith of South Mountain. Attendants at the jail listed the name as Ernest DeBergh of South Mountain.

### Carries Teeth In Pocket

According to police, when jail attendants, as customary, asked the prisoner to give them any personal articles he might have so they could be kept in the jail safe while the owner was in the cells, DeBergh or DeBeith handed over his false teeth.

Since neither police nor jail attendants could quite understand the man's speech, they asked him if he could talk better with his teeth in.

When DeBeith said he could, his teeth were returned and he put them in his pocket.

Puzzled, police asked "Why?" DeBeith said he "always carries them there."

Taken before Justice of the Peace John O. Whitman, Cumberland Twp., DeBergh pleaded not guilty to a disorderly conduct charge but was found guilty by the justice after a hearing. Unable to pay a \$5 fine and the costs, he was sent to jail for 10 days. The defendant told the justice his pocketbook and the \$16 it contained had been lost Wednesday evening when he was "ditched" by his driver at a tavern west of Fairfield.

MAN CHARGED WITH MURDER IS THREATENED

BOONVILLE, Ind. (AP) — A convicted rapist accused of killing 11-year-old Avril (Honey) Terry was held under close guard today after an angry crowd of townspeople gathered outside the jail.

Emmett O. Hashfield, 53-year-old trinket maker, was ordered held without bail Wednesday on a preliminary charge of first-degree murder after the little girl's dismembered body was found.

Sheriff Robert E. Shelton and State Police Sgt. Wendolin Opel said Hashfield orally admitted dumping Avril's dismembered body on the Ohio River bank and in the river, 25 miles southeast of Boonville.

**Had Tree Picked Out**  
The little girl disappeared Tuesday on a trip downtown to buy candles for a birthday cake for her 8-year-old sister, Candace. Hashfield was arrested Tuesday night and at first denied any knowledge of the case.

His statement and discovery of the body came Wednesday. Sheriff Shelton said a crowd of about 200 persons gathered outside the Warrick County Jail Wednesday night.

"They want a quick trial, and they had a tree picked out across the street they wanted to use," Shelton said. He said that he saw no ropes but that several tomatoes were thrown at his deputies, two of them scoring hits.

**Accepted Ride**  
Shelton said Hashfield paced his cell nervously but said nothing.

Hashfield wore overall pants and a blue shirt in his court appearance. He had a black eye, and police said it was the result of a blow from Avril's father, Dr. Robert H. Terry, who had been allowed to question the man.

Police said Hashfield reported meeting the girl when he stopped to help her pick up some pennies she had dropped on the sidewalk. He said she accepted a ride in his car — something her parents had warned her not to do.

Tomato Blight Found In County

The first signs of late tomato blight in Pennsylvania have appeared near Goodyear, Frank S. Zettie, Adams County farm agent, said today.

He said this is the most destructive disease of all, and proper care should be taken to rid the tomato of this killer.

Zettie said that in communities near the blighted areas, farmers should again spray the tomatoes using Maneb 80 per cent WP at three pounds per acre. This spray should be repeated every five days, Zettie urged.

Maneb residues are legal even when sprayed the day of harvest.

In areas where the late blight is not present, the agent cautioned the tomato growers to spray about once a week using three pounds per acre. The tomato season should reach its peak in a week or two, he said.

Powers

(Continued From Page 1)

the U2 flight.  
Powers listened, largely with his arms folded and little change of expression, to testimony of Soviet investigators on technical aspects of his plane's equipment and purpose. He charged the flight was planned, premeditated and aggressive.

The flier challenged two of the experts.  
He disputed the testimony of Lt. Col. Yuri Tyufilin that he flew a plane without American national identification marks.

Powers insisted it was quite possible his plane once had markings and that they might have been covered over by paint.

"I always saw it with identification marks," he said.

The Russian expert was obliged to agree that marks might have been painted out, but stood on the findings of the investigators that the U2 never had carried national identification numbers.

This was intended to shake Powers' claim that the plane he flew might have had markings which he did not happen to see when he took off in Pakistan for a high-altitude dash across the Soviet Union.

Konstantin Voroshilov, a gun expert, showed the court an incendiary device and Powers interrupted again.

"I don't have a question, but I would like to make a statement," he said.

Used To Light Fire

He showed from the directions on the box that the incendiary device was intended simply to light a campfire if he was forced down in the wilderness.

Referring to a .22 caliber pistol he was carrying when captured, Powers said:

"The pistol was given to me only for hunting. It is too bad that nobody but me knows that I can't kill a person even to save my own life."

Lt. Col. Nikolai Douev went into great detail describing the pistol, which Powers strapped to his side beneath his flying suit.

The presiding judge remarked that it would be difficult to do any hunting at the 68,000-foot altitude at which Powers was flying, and he pilot agreed that this was so.

It is a usual thing for American pilots on flights which might come down in uninhabited territory to carry pistols for killing game, as part of their survival equipment.

After this exchange the procession of expert witnesses continued to drone again.

Dr. Victor Ilich Prazorovski, a medical expert, testified the poison needle carried by Powers killed a dog in three minutes and a mouse in 20 seconds.

The poison, he said, was one of the curare group such as South American Indians use on blowgun darts.

Most Potent Poison

"It is one of the most potent and quick-acting poisons," he said. "Our commission concluded that if a human being were pricked by this needle death would set in as swiftly as with animals."

Powers had testified that the needle was given him in Pakistan and it was up to him whether he should use it. He said it was intended for use only if he was tortured and the torture became unbearable.

The expert witnesses testified after research which seemed to be exhaustive.

The poison, for instance, had been tried out on rabbits, dogs, mice and perhaps other animals and it was found that one gram would kill an animal. A gram, the doctor explained, was 1/1,000th of a gram and a gram is about the size of a small berry.

Quibit Seeks Third Win At Shenandoah

## FINDS NATO GREAT FORCE TO DETER WAR

Associated Press Special Service

WASHINGTON (AP) — Rep. Frank M. Clark (D-Pa.) is back from Europe convinced that the North Atlantic Treaty Organization has been the greatest deterrent to aggression developed since World War II.

"Since the formation of NATO we haven't lost one inch of soil to the Communists," Clark told a newsman.

Clark indicated that the road ahead for NATO may not be an altogether smooth one but the organization offers much hope for the future.

His impressions were gathered on a 12-day tour of NATO bases by members of Congress and the parliaments of 15 member nations. Clark served as chairman of the seven-member United States delegation.

The tour included stops at NATO military bases and headquarters in France, Germany, Italy and in Malta. Clark arrived in Washington.

## Gallagher's Son Dies In Crash

WAUSEON, Ohio (AP) — Tim Gallagher, 18, the only child of Philadelphia Phillies farm director Jim Gallagher, was killed Wednesday when his auto crashed into the rear of a tractor-trailer on the Ohio Turnpike near here.

The youth, who was riding alone, was en route home to Philadelphia. He had planned to stop in Cleveland for the Chicago White Sox-Indian game Wednesday night after spending a three-week vacation in Chicago.

Funeral services will be Saturday in Chicago.

The youth's father formerly was general manager of the Chicago Cubs.

ton by plane last weekend.

"The trip convinced me of the necessity for continued help and support for this alliance representing an accomplishment never before achieved in peacetime," Clark said.

He said "serious and difficult problems" lie ahead for the organization, among them the "procuring of weapons, adjustment of national frictions and the filling out of troop requirements of an actual instead of a theoretical basis."

## State's Record On Forest Fires

HARRISBURG (AP) — Pennsylvania ranked seventh among 14 Eastern states in the number of forest fires last year, the State Forests and Waters Department reported today.

"We are worried, however, about the high acreage burned by each fire," said Secretary Maurice K. Goddard. "We rank third behind West Virginia and Kentucky on this score."

Goddard said a report released by the U. S. Forest Service also shows that Pennsylvania ranks second in the number of forest acres it protects from fire and fifth in the percentage of forest area burned during the year.

## ON BELONGING

We always know when we are  
in the place where we belong—  
for it is then that we feel com-  
fortable. We don't feel as though  
we are going to be asked to leave,  
or to "move over."Every faculty that we have has  
its place in relation to the world  
outside. And the work of life is to  
find where all that we have and  
are—belongs. And in proportion  
as we find the greatest number of  
places in the world for our abilities,  
are we given our measure of  
success!We may belong to our friends—  
and when we do, our friends  
know it and are glad. We may be-  
long to our job—and when we do,  
the job grows big. As people  
study, observe, travel, and in-  
crease in usefulness, everything  
and everybody makes more  
space for them—and they belong  
more than ever.The belonging sensation is the  
natural one. It is the one that has  
kept "one's kind" together. And  
how wonderful it is to belong and  
be sure that you are understood.  
Few men and women who are  
failures belong that way. Mostly  
their wires became crossed, or  
something snapped at the wrong  
moment. For all people belong—  
where their best intentions point!Let us try to belong where we  
are the best fitted, and desire  
those things that make us better  
known to ourselves—so that we  
may be the more interesting to  
others.Let us keep our nerve—by  
keeping our place—by belonging  
to everything which we touch or  
attempt or are!Tomorrow Mr. Adams will talk  
on the subject: "The Area Of A  
Smile"Protected, 1960, by The George

## THE FELLOW WHO WORRIES

Here's to the fellow who worries,  
The brother who longs for the  
strife,  
The eager, hard-worker who  
hurries  
Each day to the duties of life.  
With his mind on the post where  
he's needed,  
His thoughts on the work to be  
done,  
He chafes when his path is  
impeded  
And halted; he longs to get on.Stop the fellow who worries with  
illness,  
Restrain him for days on his bed  
And he'll think through the weary  
night's stillness  
Of those who by him must be  
fed.About him his duties will hover  
And add to his torment of pain;  
They will shriek: "There is ground  
to recover;  
Get back to your labors again."Then here's to the fellow who  
worries—  
The fellow of spirit and grit,  
Who faces life's feverish flurries  
And bodily refuses to quit.  
Despite all the ills that assail him  
Unwilling, you find him, to  
shirk.The fellow who worries! I hail  
him,  
The man who has pride in his  
work.Protected, 1960, by The George

U. S. PLAN TO  
CUT NUCLEAR  
STOCKPILES  
TO BE PUSHED

By MILTON BESSER

UNITED NATIONS, N.Y. (AP)—  
The United States will push its  
latest proposal to slash stocks of  
nuclear weapons in world arsenals  
despite an initial Soviet rebuff.This was the word from high  
American sources Wednesday as  
the 82-nation U.N. Disarmament  
Commission continued debate on  
how to get the deadlocked disar-  
mament negotiations between the  
West and the Communists going  
again.Ambassador Henry Cabot Lodge  
unveiled the U.S. proposals at the  
commission's opening session  
Tuesday. He said the United  
States was prepared to set aside  
30,000 kilograms—33 tons—of  
U-235 for peaceful purposes if the  
Soviet Union would do likewise.

## First Definite Figure

This was the first time the  
United States had come up with  
a definite figure. Lodge said this  
amount could generate an explo-  
sive force 1,000 times greater than  
all the bombs dropped by all  
warring powers during World  
War II.U. S. informants said Soviet  
agreement would result in a "ma-  
jor reduction of all nuclear weap-  
ons stocks." The transfer would  
be contingent on U. S.-Soviet  
production on a total cutoff of  
all production of fissionable ma-  
terials.

## "Just A Refresh"

If the Soviet Union is not pre-  
pared to join in such a plan,  
Lodge went on, the United States  
is ready to join the Soviet Union  
in halting by successive steps  
production of fissionable materials  
for weapon use."We are prepared," he said,  
"to shut down, one by one, under  
international inspection, our ma-  
jor plants producing enriched ura-  
nium and plutonium, if the Soviet  
Union will shut down equivalent  
facilities. We are prepared to do  
this now—without delay."Vasily V. Kuznetsov, the Soviet  
deputy foreign minister, said the  
U. S. plan was just a refresh of  
old proposals and not worthy of  
serious consideration. He repeat-  
ed the perennial Soviet demand  
for an unconditional ban—without  
enforcement safeguards—on nu-  
clear weapons and production of  
fissionable materials.U. S. sources said this could not  
be taken as a "considered reply"  
to the American plan.

## Unearned Runs Benefit To Yankees And Costly To Chicago, Baltimore

By ED WILKS

Three unearned runs have jarred loose the three-way race for the American League lead.

An unearned run in the 10th inning brought the New York Yankees a 3-2 victory at Boston Wednesday night. That gave the Yankees a 1½-game edge over the second place Chicago White Sox, who lost 3-2 at Cleveland on an unearned run.

And the third place Baltimore Orioles, carried into extra innings because of an unearned Washington run, dropped their fourth in a row, 11-7 in 12 innings, and fell 2½ games back. It was the Senators' fifth in a row over the Orioles, who have lost nine of 14 to Washington.

### Tigers Beat Athletics

Detroit defeated Kansas City 5-2 in the other AL game.

A walk, Tony Kubek's single and a wild throw by second baseman Pete Rynn gave the Yankees their third straight victory.

Bobby Shantz (4-3) was the winner in relief, Mike Fornieles (7-3) was the loser in relief.

The Indians handed White Sox relief ace Gerry Staley his sixth defeat after tying the game with two runs in the seventh. It was only the fourth loss in 13 games for the White Sox, who were shut out over the last five innings by Jim Perry and winning reliever Johnny Klippstein (4-5).

### Orioles Get 5 Homers

The Orioles ripped five home runs—all solo shots by Jackie Brandt, Al Pilarcik, Ron Hansen, Jim Gentile and Gus Triandos—and socked four doubles, but a six-run seventh inning, with one run unearned, gave the Senators a 7-7 tie after nine. Washington then put it away against reliever Wes Coak (2-1) when he walked the bases loaded in the 12th and then gave up two-run singles by pinch-hitter Julio Becquer and Billy Gardner. Tex Clevenger (5-8) was the winning pitcher in relief.

Frank Lary won his 11th for the Tigers with a six-hitter. After the A's scored twice on half of their hits for a 2-all tie in the third, loser Ray Herbert (7-13) hit Charley Maxwell with a pitch in the fifth inning and he scored the winning run on singles by Rocky Colavito and Ossie Virgil.

## UPPER ADAMS LITTLE LEAGUE

The Bendersville Yankees turned the tables on the Biglerville Red Sox 15-9 Wednesday evening at Bendersville in the makeup of a tie game played July 29. It was incorrectly reported the Yankees also defeated the Red Sox on Tuesday. The Red Sox won the Tuesday game 9-4.

Ten runs in the last of the second inning sparked Joe Bosak's Yankees to their victory on Wednesday. Tom Black and Wayne Crum pounded out five of the victor's nine hits. Eric Wickline rapped two hits for the Red Sox.

Score by innings:  
Red Sox — 0 4 0 4 1—9-7  
Yankees — 4 10 0 1 0—15-9  
Batteries: Yankees, Taylor and Clark; Red Sox, Heller, Cover and Miller.

Tonight the Arentsville Cardinals will meet the Yankees in another makeup of a postponed game at Bendersville.

### Upper Adams Pony League

New Oxford's Dodgers came from behind to defeat the White Sox at Arentsville 3-2 Wednesday evening in making up a previously postponed game. It was the first victory for the Dodgers over the White Sox in eight games covering a span of two years.

John Harner drove in the tie-breaking run with a hit in the seventh inning. Francis Topper rapped a double and triple for the Dodgers.

Score by innings:  
Dodgers — 0 0 1 0 1 1—3-6  
White Sox — 1 1 0 0 0 0—2-5  
Batteries: Dodgers — Harner and Rusinko, L. Shrader; White Sox — Wetzel and Ernest.

## Yanks In Bern For Olympics Warmup

BERN, Switzerland (AP) — America's Olympic track and field squad—including at least a dozen gold-medal hopefuls—arrives in Switzerland Friday for a final warmup meet before the Rome Olympics.

The American team, studied with world record holders, is certain to swamp the relatively weak opposition from seven other countries absent from the 50-entry field, and only Poland's javelin thrower, Janusz Sidlo, is considered to be in the world's top class.

The American squad arrives in Zurich by charter plane from New York and will travel immediately to Bern for the weekend meet. The squad is scheduled to continue its flight to Rome on Monday.

## Catches Tuna In Opening Innings

GALLILEE, R. I. (AP) — Two tuna within the "keepers" limit were boated Wednesday at the opening of the 1960 U. S. Atlantic Tuna Tournament. The first fish was taken by last year's champion of the deep-sea event.

W. Harry Peters of Montclair, N. J., boated a tuna weighing between 150 and 200 pounds just 45 minutes after the fishing started. Last year he caught the only tuna in the tournament.

Edward Gruber of Spring City, Pa., captured a 103-pounder later. He is fishing from the Nitso of the Edgartown, N. J., Offshore Anglers Club.

Peters is fishing for the Mimini Big Game Anglers Club of Bimini, B. W. I.

## JAYCEES PLAN TENNIS MATCH

The Gettysburg Junior Chamber of Commerce will hold a junior tennis tournament for youths up to 18 years of age, Chairman John Eppler announced today. Eliminations will be held August 25 and 26 and the finals on August 27, Eppler said.

The winner in the tournament will be presented with a statuette award at the annual Jaycee awards night program to be held this fall.

Eppler said those wishing to participate in the tournament should notify him at Gettysburg ED 4-3831 or Bart Hoppe at the Howard Johnson Restaurant.

At the opening of the tournament August 25 the names of the contestants will be placed in a hat and the names drawn to determine the participants in the first series of contests.

Winners in the first series August 25 will meet August 26 to determine the finalists who will play August 27.

## LABINE HELPS BEAT PHILLIES FOR PIRATES

By ED WILKS

Associated Press Sports Writer

Clem Labine has bounced back to the National League with a flourish for Pittsburgh's first place Pirates — and he did it against the Philadelphia Phillies, one of the clubs that "read" him out of business.

It was after Los Angeles traded him to Detroit of the American League in mid-June that the one-time Dodger bullpen ace learned some NL clubs were reading his pitches — getting tip-offs on what he was about to throw from the way he held the ball. Labine got wind of it from Al Dark, then playing for the Phils and now with Milwaukee, after Clem left the league.

### Saves For Pirates

Wednesday night, he came back, stepping in on a sixth-inning rally by the Phils and saving a 5-3 victory for the Pirates with 3 2-3 innings of hitless relief.

That kept the Bucs 7½ games ahead of the second place Milwaukee Braves, who trimmed Cincinnati 11-4. San Francisco sent third place St. Louis skidding to a sixth straight loss, 6-5. The Chicago Cubs beat Los Angeles 1-0.

Labine was signed as a free agent by the Pirates Tuesday. Trying a new pitch, "a short curve," the hefty right-hander struck out six, fanning pinch-hitter Tony Curry with the bases loaded and two runs home in the sixth after the Phils had chased winner Harvey Haddix (8-7) and trimmed the Bucs' lead to 4-3.

### Braves Wallop Reds

Milwaukee walloped the Reds with two scoring bursts, putting across five runs in the first inning and six in the eighth, when Hank Aaron walloped his 32nd home run, with a man on, and Ed Matthews lined a two-run double. Six singles, a walk and an error took care of things in the first inning against Jim O'Toole (10-11). Reliever Joey Jay (4-6) was the winner.

Rookie Sherman Jones, second of three Giant pitchers, singled home the deciding run in the fifth inning for his first major league victory. Johnny Antonelli saved it.

Felipe Alou socked a three-run homer off loser Ray Sadecki (6-7) as the Giants swept the three-game set. Walt Moryn and Daryl Spencer homered for the Cards.

Ernie Banks' 34th home run won it in the ninth for the Cubs, who had been blanked on three singles by loser Don Drysdale (10-13). Glen Hobbie (11-16) was the winning pitcher.

## 8 WOMEN IN THIRD ROUND

PITTSBURGH (AP) — Eight women tee off today in the third round of match play in the Pennsylvania Women's Amateur Golf tournament.

Mrs. Paul Klinefelter, looking for her second straight title, and Miss Betty Fehl, continued to set a hot pace, winning their second-round matches Wednesday.

Mrs. Klinefelter, a Philadelphia, an ousted Miss Jacqueline Leary, also of Philadelphia, 6 and 5, at the 5,975-yard Fox Chapel Country Club course.

Miss Fehl of Reading beat Miss Anne Rutherford of Lebanon 6 and 5.

In other matches, Miss Ann White of Uniontown defeated Mrs. T. E. Nolan of New Castle, 3 and 2; Mrs. Dale Anderson of York knocked off Mrs. W. G. Boggs of Pittsburgh, one-up; Miss Virginia Ott of Williamsport beat Mrs. H. S. Semple of Pittsburgh 2 and 1.

Mrs. J. G. Capers Jr., of Philadelphia eliminated Miss H. M. Weiland of Philadelphia, 3 and 2; Mrs. P. M. Teplitz of Pittsburgh ousted Mrs. E. Cleary of Philadelphia, 2 and 1; and Mrs. H. F. Benitoa of Uniontown won out over Mrs. B. Halpern of Pittsburgh, 2 and 1.

## Jesse Owens Misses Olympic News Job

ROME (AP) — The great Jesse Owens, who won four gold medals for the United States at the 1936 Olympics in Berlin, can't get into the Rome Olympics — as a reporter.

As a one time Olympic star, however, he's getting a warm welcome.

Owens' application for accreditation as a reporter for an American magazine (Ebony) was turned down.

"Too late," said a spokesman for the U.S. Olympic Committee, "and for no other reason. We accredited all American correspondents on a first-come first-served basis."

## Reed And Laver To Play Fourth Time

NEWPORT, R. I. (AP) — Whit Reed of Alameda, Calif., will leave strategy behind as he meets Rod Laver of Australia today in a feature quarter-final match of the Newport Casino Invitation Tennis Tournament.

Laver has met Reed three previous times this year and has won each time.

Reed says: "The heck with strategy. I've tried all kinds against him, so I'll just get out there and play the game."

Today's other quarterfinal pits Bobby Wilson of England against Chuck McKinley, Davis Cup player from St. Louis.

## ELORDE BELTS GOMES TO KEEP JUNIOR TITLE

SAN FRANCISCO (AP) — Some fight fans might contend Junior Lightweight Champion Flash Elorde isn't much of a slugger. Don't try that line on Harold Gomes.

The 25-year-old Filipino southpaw knocked out Gomes in 1:20 of the first round Wednesday night in their scheduled 15-round nationally televised title fight.

It was quicker, neater and much more impressive than March 16 when Flash won the 130-pound title from Gomes on a knockout in the seventh. On that occasion Gomes hit the canvas eight times.

### Lucky Left

Wednesday night it was twice. Elorde, 130, caught the providence, R.I., challenger, also 130, with what the champ called "a lucky left" that sent Gomes down for a seven count.

"I knew he would get up, just like in Manila," Elorde said later. When Gomes did get up, the champ closed with a smashing combination of rights and lefts that ended the fight before many of the 2,279 spectators had settled in their Civic Auditorium seats.

For Elorde, it was the third knockout in a row and his 22nd in 72 fights—not a particularly impressive knockout record.

### Wants Brown

Elorde's manager, Lope Sarreal, said he is attempting to set up a title fight with Lightweight Champion Joe Brown. He said he talked with Brown's manager and guaranteed \$60,000 for the fight, but added he is a little doubtful that Brown will agree to battle Elorde.

Elorde's next match will be a defense of his Oriental lightweight title in Manila if Kazuo Takayama wins his fight Aug. 29 with Featherweight Champion Davy Moore.

If Moore wins, then arrangements have been made for another title fight in Manila.

Don Warner was the winning hurler and Bill Solomon the loser. The victory enabled Brushtown to move into fifth place and one game back of fourth-place Harney.

The above league standing has been adjusted in eliminating a victory by Mummasburg over Harney. At a league meeting this week the game was ordered replayed if it is required to determine playoff positions.

## IOC TACKLES GAME HURDLES FOR 1964 MEET

By TED SMITS

Associated Press Sports Editor

ROME (AP) — The Olympic games, eight days away from real competition, moved today into the arena of debate and intrigue.

The International Olympic Committee meets Friday to tackle the ever-thorny problem of Nationalist China and find a successor as president to Avery Brundage of Chicago, now apparently not unwilling to be drafted.

The big Finnish and Canadian teams both arrive and the Modern Pentathlon Federation opens sessions, first of the world-wide sports groups to convene.

### IOC Hurdles

I.O.C. members huddled through the night in swank hotel rooms and at open air tables on the Via Veneto, Rome's gay white way.

They must decide:  
1—Whether to draft Brundage, stern-visaged defender of the amateur code, or choose between Lord David Broughley who won the 400 meter hurdles in 1928 and an Iron Curtain representative.

### China Problem

2—How to find a name under which to admit Nationalist China to these games.

3—When to start the 1964 games in Tokyo. The Japanese are supposed to favor mid-May. The United States and many European nations consider this too early.

Eighty-seven Soviets came in Wednesday. Among the star squads still not in Rome are the United States track and basketball teams, both barnstorming.

The games open Aug. 25 with nearly 8,000 athletes from 87 nations competing — almost double the entry list of any other games.

## MAY DELAY TITLE BOUT UNTIL 1961

By TED SMITS

Associated Press Sports Editor

ROME (AP) — A source close to Feature Sports, Inc., told The Associated Press today there was a strong possibility the third bout involving Floyd Patterson and Ingemar Johansson would be delayed until the spring of 1961.

The fight originally was set for Nov. 1 in Los Angeles. In their first meeting Johansson knocked out Patterson for the world heavyweight title. In their second, on June 30 of this year, Patterson regained the crown by knocking out Johansson.

### Not Definite

"The date is not definite," said the source, "but Nov. 1 is not a good time of the year. Also the promoters do not have time to organize and publicize the bout."

Feature Sports promoted the 1960 bout.

The source also said that the plans to bring Patterson and Johansson here for the signing just before the start of the Olympic Games had been abandoned.

The source said difficulty also had developed over use of the Los Angeles Coliseum for the bout. He said that the rent had jumped to \$75,000 in contrast with the price of \$25,000 when the fight originally was discussed.

### EMMITSBURG LITTLE LEAGUE

The Cardinals, managed by Paul Sherwin and Don Waters, edged Tip Harbaugh's Red Sox for the Emmitsburg Little League title Wednesday evening 16-15 in a wild game.

Leading by six runs as the last frame opened, the Cardinals gave up eight runs to the Sox before Steve Wivell put out the fire. Gus Rice's homer tied it in the bottom of to win in the same inning.

### Dedicated Effort

Soviet officials and athletes make no effort to conceal the fact that they are dedicated to a program of world wide sports superiority and that America, with its long time role as an athletic giant, is a particular target.

"Certainly, we like to beat America," said one top Olympic official in an interview, "but only because America is very strong—and we want to be stronger. The Americans remain our very best friends in sports."

The famed Russian decathlon star, Vladimir Kuznetsov, says he considers America's Rafer Johnson one of his strongest friends.

"I work hard to beat him and he strives to beat me," says the brilliant all-around Soviet athlete, "but there is no bitterness — only high respect. That is how it should be."

### Government Support

The Soviet's flaming urge to gain athletic dominance is stoked by the government, which offers every enticement to sportsmen.

Workers are encouraged to join athletic clubs of which there are hundreds scattered throughout the Soviet Union. Every factory has a society, every society its own athletic club.

An example is the Wings of Soviet Club, located at 24-A Leningrad Ave.

## The Story Behind The Book

WALK EGYPT  
By Vinnie Williams

In the hilly western part of Georgia, according to Vinnie Williams, Negroes sometimes gather on New Year's Eve in their tiny rural churches for a ceremony they call Walk Egypt. Toy Crawford, heroine of this new novel by Mrs. Williams, has never set foot inside a Negro church. But one bitter December night during World War II, sick at heart, and half-delirious with fever, she is taken to a service by the colored woman who is caring for her. Spellbound, she hears the preacher intone:

"And seal us, Lawd, seal us wid de real seal of Your mercy. Set de seal as frontlets 'tween our eyes, Lawd, so's us kin see to follow You. For de seal of de Lawd is de sweet blood of Christ. It gwine bring us out Egypt. It gwine carry us 'cross de river. It gwine set our foot on de far shore yonder."

**Voices Prayed, Sang**  
Mrs. Williams goes on: Voices prayed, voices sang, hands cupped to catch grace of dangled in abnegation or clenched in an agony of despair. One man grunted powerfully, "Unh, unh!" No one looked down, yet every foot caught the cadence.

"Shuffle, shuffle, shuffle, stomp-stomp."

"They walked the old year and its sorrow out; they walked the new year and its hope in."

It is from this simple but genuinely moving ceremony, shared by people who above all believe that Toy Crawford finds renewed faith in life and purpose for living. Toy is a younger version of Gertrude Nevels, the big, strong-willed, self-reliant Kentucky wife and mother in Harriette Arnow's *The Dollmaker*. And Toy's world, the Dollmaker, is evoked by Mrs. Williams as colorfully as Marjorie Kinnan Rawlings described the Florida scrub country in *The Yearling*.

### Supports Her Mother

When still a girl Toy is forced to assume the burden of supporting her mother, her sister and her brother, and takes over the operation of the family's tiny gristmill. Though she desperately wants to be a better person, she becomes—a child dealing with adults in an adult world—hardbitten and mistrustful. When at last she learns to love—freely and generously—late seems about to snatch everything from her hands.

The story of Toy and of her eventual regeneration is told by Vinnie Williams in *Walk Egypt*, the Book-of-the-Month Club Selection for August.

Though Mrs. Williams' mother came from the North and her father from France, she herself is a confirmed Southerner. She was born in South Carolina, she was graduated from Florida State College for Women, and for some time now she has been a resident of Georgia.

Of Thomson, Georgia, the small town where she lives, she says: "The people have charm enough to sustain a frog; they are the friendliest in the world—I dearly love them and couldn't write what I do without their help."

### Natural-born Talkers

"People here are natural-born talkers and tale tellers and, to a degree, poets—this is what I love about the whole South. Most of the material for *Walk Egypt* I got first-hand. I could go through the book page by page and say, 'So and so told me this story,' and 'This old gentleman told me that.' I make up very little; I report."

Mrs. Williams met her husband, Roy, a master sergeant in the U. S. Army Signal Corps, while both were attending high school in St. Petersburg, Florida. However, they were married up North when he was stationed at Fort Monmouth, New Jersey. Later, they were transferred to Hawaii, where their daughter, now 13, was born. They lived in California briefly while Sergeant Williams attended TV school and were then assigned to Fort Gordon, Georgia. When her husband was reassigned again—this time to Fort Greely, an Army post 100 miles from Fairbanks, Alaska—there were no civilian quarters available, so Mrs. Williams remained in Georgia. Very soon afterward, in 1957, her first novel, *The Fruit Tramp*, was published. It is based on material she gathered while working for the Florida State Welfare Board, primarily in rural areas, after graduating from college and before her marriage.

Her husband is now back at Fort Gordon, an easy run from Thomson. They live in a rambling one-story house that was formerly owned by the late Senator Thomas E. Watson, once (1904) Populist nominee for President of the United States.

## Scribe Says Aged Care Bill Faces Willy-Nilly Congress Typical Of Prosperous Era

By JAMES MARLOW  
WASHINGTON (AP)—Since this is the foot-in-the-door period of American history, that may be the kind of medical care program for the aged Congress will produce in 1960.

In time of national crisis, urgency and emergency, you can look to Congress for fast, drastic and far-reaching legislation. When the country is prosperous, as it is now, and pressures are mild, Congress gets cautious and conservative.

It limits itself pretty much to foot-in-the-door legislation which, while it may set out down a new road, won't be extreme. What it does is open the door for more extensive legislation later, usually bit by bit.

**Decisive Action**  
Congressional action under crisis and pressure was demonstrated in the New Deal days of the 1930s when the country was stopped dead by depression and Congress passed the social security law, the 40-hour week, the Wagner labor act.

Under the stimulus of the Supreme Court's 1954 decision outlawing public school segregation, Congress in 1957 passed the first civil rights act of the 20th century.

This was a comparatively mild piece of legislation which, while it angered white Southerners, left Negroes and northern liberals displeased because it didn't go further.

**Later Moves**  
This was the typical foot-in-the-door type of legislation when there was no national emergency. It was hardly more than a beginning. But, it opened the door for more action later.

This year Congress passed another civil rights act, still rather mild and limited. No doubt it will be followed in the years ahead by more civil rights legislation, each piece opening the door a little further.

For several years the idea of providing some kind of medical care for the 16 million people over 65 has been growing in the national consciousness and in Congress.

**Main Direction**  
It has taken two main directions:

1. Provide medical care for most people over 65—since most retired people's income is a lot less than when they worked—with the program paid for by a slight boost in the social security tax. This would mean a broad health insurance program for older people.

2. Provide a much narrower program by letting the states set up their own individual plans, with the federal government chipping in—through grants—to help pay the cost. This is the mild approach and would cover far fewer people than those who would be affected under No. 1.

**Convention Recess**  
Last June the House passed the No. 2 kind of bill, estimated to benefit perhaps 500,000 to one million people a year. Then it was up to the Senate to act. But in between times came the political conventions.

The Democratic platform called for the No. 1 kind of program, with most older people entitled on a wide scale to health insurance paid for in their working years through the added social security tax.

The Republican platform was extremely vague but can be listed under the No. 2 type of program:

### York Springs

**MRS. F. E. COULSON**

would set up their own programs. They probably would vary from state to state.

**Hit Bottleneck**  
Although the Democratic candidates—Sen. John F. Kennedy and Lyndon B. Johnson—backed the kind of program promised in their party platform, they soon ran into a bottleneck.

The Senate Finance Committee cleared for action by the full Senate a medical care program which fell far short of the Democratic platform promise. Its bill was similar to the one passed by the House in June.

There will be a fight on the medical care program before this session of Congress ends. Perhaps the Kennedy-Johnson forces will win. More likely the result will be a mild, limited compromise.

But once such a program is passed it becomes a foot in the door for broader legislation later, if only a bit at a time.

## MR. PRESIDENT

by Patrick and Vinmont

CHESTER ALAN ARTHUR

Born at Fairfield, Vermont, October 5, 1830. He taught school while studying law after graduating from Union College in 1848. Six years later he was admitted to the bar. For 25 years he practiced law and was actively associated with the machine politicians in New York City.

During the Civil War he was quartermaster general of New York State. From 1871 to 1879, he was collector of the port of New York—the highest paid governmental position next to the President of the United States.

Removed from this office by President Hayes, he was nominated Vice-President by the Republicans in a conciliatory gesture to the New York delegation in the convention of 1880. His only elective office was the Vice-Presidency. By the death of Garfield he was in the White House six months later.

He became the twenty-first President of the United States on September 19, 1881. He sought the nomination in 1884 but was not chosen.

During his administration he left factions and petty politics behind and by ignoring the unhappy issues of sectionalism, aided in reconciling the sections. The Tariff Act of 1883 was passed, as was the Civil Service reform law which took out of politics the departmental clerkship in Washington and the larger customhouses and post offices. He died in New York City, November 18, 1886, aged 56.

### MORRISON REMICK WAITE

Born in Lyme, Connecticut, 1816. He graduated from Yale in 1837 and then studied law. Admitted to the bar in Ohio, he first practiced in Maumee City and moved to Toledo in 1850. He was one of three prominent lawyers who represented the United States as counsel before the "Alabama" tribunal at Geneva in 1871.

Gaining added recognition when the Court of Arbitration awarded United States damages of \$15,500,000 gold against Britain, he was appointed Chief Justice of the United States Supreme Court in 1874. He served until his death in 1888. During most of this time the court was involved in the interpretation of the 13th, 14th and 15th amendments in cases which grew out of the Civil War and reconstruction.

### MRS. JOHN E. McELROY

Mary Arthur McElroy presided as hostess for her brother President Arthur who came as a widower to the White House. He had married Ellen Herndon in 1859. Mrs. Arthur was born in Virginia in 1837. She died in 1880.

Mrs. McElroy was specially adapted to cope with the responsibilities of mistress of the White House. As fond of society as her genial brother, her natural tact and previous social experience brought warmth and gaiety to the most formal functions.

## BRITISH SHIP SAVES YOUTHS

NEW YORK (AP)—Four youths had a joyous reunion with their families Tuesday night after spending a night adrift off New Jersey in a disabled boat before a passing freighter spotted them. None the worse for their experience were James and Peter Ciliberto, 19-year-old twins from Chester, Pa., and Vincent J. Tridico Jr., 16, and James P. Finnegan, 25, both of Ocean City, N. J.

Tridico's father owns the 16-foot boat in which they set out from Ocean City Monday afternoon. It soon developed engine trouble. They drifted until they were off Wildwood, N. J., around 9:30 a.m. Tuesday, when the British freighter Kalewa spotted them.

### Land Crew

Mr. and Mrs. Joseph Ciliberto and Mr. and Mrs. Vincent Tridico Sr. and son, Bobby, 11, rode a coastguard cutter to the Kalewa's anchorage near the Statue of Liberty Tuesday night. Dressed for boating—rather than land travel, the youths were happy to see that the parents remembered to bring along pants and shoes for them. They praised their treatment by the British ship's crew. The relatives also came equipped with a trailer to take home the boat, which the freighter crew had rescued.

Since an island-wide dog vaccination drive in 1958, there have been no human deaths from rabies on Formosa.

JAKARTA, Indonesia (AP)—President Sukarno has broken diplomatic relations with the Netherlands because the Dutch sent an aircraft carrier to disputed West New Guinea.

Observers generally believed that the break, which had been expected for some time, would be followed up by seizure of such jointly owned interests as the Shell Oil holdings and Unilever's vast plantations. Both are owned by British and Dutch stockholders.

SYDNEY, Australia (AP)—Police have sealed off the Seaford area north of Sydney in a hunt for the slayer of kidnapped schoolboy Graeme Thorne, first child kidnapped for ransom in Australian police history.

The partly decomposed body of the 8-year-old boy was found beneath an overhanging rock on a rubbish dump in the Seaford suburb Tuesday. The body, bound and gagged, was wrapped in a blanket.

LANCASTER, Pa. (AP)—James M. Smith Jr., 27, of Ephrata, was killed Tuesday when he accidentally slipped and fell from a roof of a building at the Armstrong

Smith was doing work for a roofing firm. He fell about 20 feet to a concrete driveway. He was dead on arrival at Lancaster General Hospital of a skull fracture.

## TELEVISION STARS SOON INCORPORATE

By CYNTHIA LOWRY  
AP TV-radio Writer

HOLLYWOOD (AP) — Television stars are not born or even made. They are incorporated.

Nowadays, when a performer reaches the point at which he can be referred to—and paid as—a personality, he is instantly transformed into a company.

It isn't a matter of whim. It is just that the tax laws are kinder to legitimate corporate structures than they are to individuals.

**Desilu An Example**

Probably one of the best known of these is Desilu, which started out as a little corporation owned by Desi Arnaz and Lucille Ball to make "I Love Lucy." It has now become a TV giant making many shows—and with a sentimental name completely ironic since the divorce of the couple.

In many cases the derivation of the corporate names is more interesting than what the company really does.

Ann Sothern heads up Ansco Productions—the first two letters of her first and surname. Jack Benny's production company is "M and J," for Mary and Jack.

of course, Donna Reed and her husband, producer Tony Owens, head up "Todon Productions," also based on their two first names.

**Hundreds Of Others**

Peter Lawford is involved in Ken-Law—so named because his wife is the former Patricia Kennedy.

Perry Como, head man of Roncom Productions, named the company by stringing out his wife's first name (Roselle) and the first name of his eldest son (Ronnie) and the first three letters of his last name. Danny Thomas achieved the name Marterto Productions from the names of his three children, Mary, Terry and Tony.

There are hundreds of others. But my own personal favorite is Lawrence Welk's corporate structure: Teleklew. The last syllable is just "Welk" spelled backwards, nature's own way.

**POLICE SEEK TRAVELER**

Borough police received a telegram Wednesday night from them to notify Joseph Yuhasz, Hambren, Ohio, to call his home, due to a death in the family. Yuhasz is believed to be in the Gettysburg area.

## CONVICTED OF KILLING GIRL

LOS ANGELES (AP)—Richard W. Evans, a 29-year-old aircraft worker who formerly lived in Harrisburg, Pa., has been convicted of second degree murder in the fatal shooting of his girl friend.

The conviction was handed down Wednesday by Superior Judge Clement D. Nye, who presided at the non-jury trial. Nye ordered Evans to appear Sept. 13 for sentence and a probation hearing. He faces a penalty of five years to life imprisonment.

Evans pleaded that he was only trying to scare Carol Rudy, 21, who also had lived in Harrisburg, and that a pistol discharged accidentally during an argument in a hollywood apartment the two shared.

Police said Evans left his wife and three children for Miss Rudy three years ago.

## Dr. Sunderman

(Continued From Page 1)

ical field in Philadelphia as a teacher, specialist and author. At the present time he is head of the metabolic division at Jefferson.

During and since World War II, he has served the government in many highly specialized scientific projects.

Dr. Sunderman was honored by his alma mater several years ago when an honorary degree was conferred upon him.

Besides his many activities in the medical field, Dr. Sunderman has kept up with his music and is prominent in music circles in Philadelphia. Single and double string quartets, numbering members of the Philadelphia Symphony Orchestra, still assemble frequently at his home for Sunday sessions of chamber music.

### Son Attends Workshop

Also attending the ASTA workshop is Sunderman's youngest son, Joe, an accomplished violinist, who will enter Haverford College this fall.

His oldest son, "Bill, Jr." is a doctor and recently completed a tour of duty as a Navy medical officer at Bethesda Navy Medical Center. He was recently appointed head of the clinical laboratory of the National Health Institute. "Bill, Jr." is also a fine violinist and violist.

After attending the ASTA workshop last year in Vermont, Dr. Sunderman devoted his efforts to bringing the workshop to Gettysburg. In this he had the enthusiastic co-operation of General Willard S. Paul, president of Gettysburg College, as well as the officers of the association after a visit to the campus and conferences with officials of the college and its music department.

Dr. Sunderman keeps busy participating in the activities of the workshop. Brua Chapel gives him many opportunities to reminisce about the chapel programs and the concerts of his undergraduate days in the very same building which has now been enlarged and designed for use of the music department.

### Student Missionary

Sunderman was the third of a trio of exceptionally fine violinists who contributed to campus and local musical activities during their undergraduate days. The first was Paul Loetz, who now lives in retirement, travels extensively and returns to the campus nearly every commencement. He was followed by W. Raymond Samuel, who entered the ministry and now lives at Long View, north of Gettysburg.

Among their contemporaries were "Art" Glunt, "Mike" Bowers and Herb Springer, pianists; "Dave" Heffelfinger, Ira Williams and, later, Dwight Putnam, trumpets; drummers like Stratton and "Johnny" Doub; George Trundle, "Prep" Worley and later Atwood Bright, trombonists; the cellist Hildebrand, clarinetists Otis Reichard and Ralph Hankey.

They created the heyday of instrumental music at Gettysburg College. Loyal to Gettysburg, Sunderman has contributed greatly to the college and the town. Viewing the success of the ASTA workshop and its potential in re-establishing instrumental music in schools, colleges and homes, urging the workshop to come to Gettysburg could well be his greatest contribution.

# PHOUMA FORMS NEW CABINET IN VIENTIANE

VIENTIANE, Laos (AP) — Prince Souvanna Phouma formed a new government Tuesday dedicated to ending the civil conflict with the Communist Pathet Laos and pursuing a neutral foreign policy. He retained the ministries of defense and foreign affairs for himself.

His program was patterned on demands of the army rebels who brought him back to power with a lightning coup d'etat a week ago. Capt. Kong Le, 35, the coup leader who was present at the National Assembly session when the Cabinet was announced, was reported pleased. Kong said he plans to continue army control of Vientiane until the situation fully returns to normal.

**Policy Outline**  
The internal policy outlined by Phouma includes stamping out government corruption, improvement of public health, rural development and development of natural resources.

Deposed Premier Tiao Somsanith, who had aligned Laos with the United States, returned to this capital Monday, apparently bringing the coup d'etat in Vientiane to a successful end. Somsanith and his Cabinet were in Luang Prabang, 140 miles north of Vientiane, when the revolt broke out last Tuesday.

# IOWA GIRL IS NEARING SLAM

TULSA, Okla. (AP) — Sharon Fladoos, recent winner of the Western junior championship, enters the National Junior Girls Golf Tournament semifinals today in good position to become the "little slam" champion of junior golf circles.

The 17-year-old Dubuque, Iowa, star defeated Sandra Haynie of Austin, Tex., in her quarterfinal match and meets Ann Baker, Maryville, Tenn., in today's semifinals. Miss Baker defeated Heidi Prentice, Wilmette, Ill., 1-up with three straight pars starting at the 14th hole.

Miss Haynie provided some fireworks in the second round when she defeated Judy Rand, Aurora, Ohio, the defending champion and a co-medalist, 2-up with a pair of 4-foot birdie putts on the last two holes.

**Youngest Loses**  
The youngest player in the championship flight, 13-year-old Roberta Albers, Tampa, Fla., carried Carol Sorenson, Janesville, Wis., to the 20th hole before she lost to a par 4 on the 358-yard hole.

Judy Torluemke, St. Louis, made the semifinals with a 4 and 3 decision over Robby Lee King of Arlington, Va.

NEW OXFORD — Attending reception ceremonies during the past week at the Sisters of the Blessed Sacrament Motherhouse, Cornwells Heights, where Sister Mary Andrew, formerly Miss Josita M. Bevenour, New Oxford, was given the "white veil" of the Sisterhood, were:

Her parents, Mr. and Mrs. Lawrence C. Bevenour, Mrs. Bevenour's mother, Mrs. Joseph C. Fely, and the novice's sisters, Mrs. Merle Blevins, East Berlin; Mrs. Burnell Billman, and Judith and Juliann Bevenour, and her brothers, Joseph and Jerome Bevenour; Mrs. Cletus Billman, Sonia Pensinger and Anita L. Staub.

The Rev. Philip J. Gergen, pastor of the local Catholic parish, was also present at the rites.

Sister M. Andrew will be stationed at the Cornwells Heights convent until she completes the collegiate course she is taking to prepare herself to teach in American Indian and Negro mission schools.

# FORMER STATE RESIDENTS TO MISS BALLOTS

By HARRY W. BALL

HARRISBURG (AP)—The State Elections Bureau is spending a good portion of its time explaining to Pennsylvanians in far places why they can't vote in the November election.

All the bureau can do is cite the law which says a civilian must be personally registered in the county of his permanent residence in order to receive an absentee ballot.

The rule does not apply to military personnel—just to their wives and dependents. It makes the wives that much unhappier when they come to realize they have been denied a civil right their husbands enjoy.

**Sample Letters**  
Sample letter from the state of Washington:  
"Therefore, it is impossible to register in the county of my permanent residence as I am a dependent of a member of the armed forces. I should be granted the right to vote by absentee ballot."

"Request a ballot be sent me as requested in my previous application for absentee ballot."

Another one from civilian government employee stationed abroad:  
"Is there something tainted about the civilian that he is excluded for the purpose of voting when he serves his country overseas?"

**Several Thousand Affected**  
Director Albert E. Eberman of the Bureau of Commissions and Elections estimates that several thousand Pennsylvanians will be unable to vote because of the registration requirement.

In round figures, about 1,000 applications have been received from unregistered persons who want to vote. Only a few hundred bother to write letters, but the file is getting thicker by the day. Some of them, like the irate housewife in Washington, have written two letters.

Applications for absentee ballots from both service and civilian personnel may go either to state headquarters in Harrisburg or to the various election bureaus in the individual counties. So, no exact fi-

fures are available. Dependent wives and civilians are not the only ones who write for absentee ballots. There have been applications from missionaries and others whose work takes them to remote places. Scientists are thinking of attaching miniature radio transmitters to grizzly bears in an effort to keep track of their wanderings during the fall.

## SAYS GOP IS PITTING URBAN AGAINST RURAL

HARRISBURG (AP)—Gov. Lawrence says Republicans are trying to gain votes in the Nov. 8 election by pitting rural against urban interests.

He took up the matter at his news conference Wednesday in refuting a claim by Sen. George N. Wade (R-Cumberland) that the administration has spent more on highway construction in Philadelphia and Pittsburgh than in other areas.

He said this was untrue and that Highway Secretary Park H. Martin released figures to show that his department wasn't playing favorites with any area in the awarding of contracts for construction and repair of roads.

**Trying To Be Fair**  
He said Martin was trying "to be fair to all sections of the state." On Wade's charges, he added: "But this is the kind of stuff they (the Republicans) think they are going to get away with. But they are not."

He said he was "perfectly happy to meet" Republicans in a campaign debate over his highway safety program. GOP leaders have said the program will be a major issue.

"That's just all poppycock," said Lawrence. "... I'm perfectly happy to meet with them on that issue; or any other issue in connection with saving lives."

**Job At Ike**  
He said, in response to a question, that President Eisenhower was playing politics in the current session of Congress.

"There isn't any question about it. He met with all the moguls of the Republican Party the morning of the day the session opened. And then he outlined a program which he might better have outlined months and months ago, but he knows this is only going to be a session of a few weeks and he knows these things can't be done. I think the ludicrous part of his statement was that he said he

## SHAYNE TO BE TV HERO FOR FALL SHOWS

By CYNTHIA LOWRY  
AP TV-Radio Writer

HOLLYWOOD (AP)—One of television's fall heroes will be a fighting, brandy-belted lady killer called Michael Shayne.

Shayne, literary creation of author Brett Halliday, has slugged his way through 38 books and 12 movies. On Sept. 30, courtesy of NBC, he will come to the home screens in the person of Richard Denning.

In the Shayne books, the rugged sleuth seems to divide his time about equally between battling and boozing.

**Cutting Down On Drinking**  
"I can't do much about the number of fights," confessed Denning. "But I've gradually been cutting down on Shayne's drinking. It seemed to me that the audience would get the impression that he was drunk all the time. So now I'm down at the point where, although I still fill the glass with cognac, I don't always knock off the whole thing at one gulp."

Denning is in a unique position. During the forthcoming season he will be portraying two famous fictional detectives at the same time.

It has been five years since the blond, bronzed actor made the last of the "Mr. and Mrs. North" TV series, co-starring with Barbara Britten in a string of half-hour shows based on Frances and Richard Lockridge's popular characters. In re-run after re-run the Norths continue to pop up at odd hours on the nation's TV screens.

A recent visitor in Alfred Hitchcock's office, reports overhearing the following description by the master during a telephone call: "He's a nervous little man—wears brown shoes, you know."

Bob Hope apparently is feeling more like his old energetic self. After finishing a new movie with Lucille Ball, he took off on a fishing trip to British Columbia but

## TO DRAW UP MASTER PLAN FOR TARGETS

By C. YATES MCDANIEL  
WASHINGTON (AP)—A new central agency will draw up a strategic war master plan stating which U.S. weapons will be used to hit specific targets behind the Iron Curtain if nuclear war should come.

Secretary of Defense Thomas S. Gates Jr. Wednesday named Gen. Thomas S. Power director of the planning agency to be located at Omaha in conjunction with the Strategic Air Command headquarters. Power will continue to serve as SAC commander and will have an admiral as a deputy for the new agency.

A staff of about 40 top specialists will develop a long-range target program that will be under constant review. The plan is expected to be ready by December for approval of the Joint Chiefs of Staff.

In announcing the new agency, Gates emphasized that the current strategic target plan is a cut it short to come back to Hollywood and take off on a series of one-night stands which will get him home in a couple of weeks. Singer Andy Williams, who says he'll never be another summer replacement, has been signed for TV's top guest spots: Perry Como, Dinah Shore and Bob Hope.

## MORE MENTAL HEALTH FUNDS WILL BE ASKED

By HERB LINNEN

HARRISBURG (AP)—The 1961 Legislature will be asked to set aside more funds to meet growing responsibilities in the field of mental health, a Lawrence administration aide said today.

David H. Kurtzman, secretary of administration, said that in the meantime it was hoped enough un- used funds could be found to increase salaries of certain personnel at state hospitals for the mentally ill and mentally retarded.

"These hospital staffs are short-handed and have been for some time because we haven't been able to attract the right people at the salaries the state is offering," he said in an interview.

**Hope To Raise Salaries**  
He added that with money un- spent as a result of continuing job vacancies at the hospitals, the administration hopes to raise salaries of nurses, attendants and kitchen help.

These job categories include such positions as nurses, nursing assistants, attendants, ward supervisors and cooks. Their salaries were raised last in 1956, Kurtzman said.

At present there are 11,653 employees in the 17 mental hospitals. The full complement authorized is 12,733—leaving 1,080 vacancies. In the seven schools for the mentally retarded, 3,300 of 3,413 jobs are filled, public welfare department figures show.

**Meeting On Friday**  
A meeting is scheduled Friday with Mrs. Ruth Grigg Horting, secretary of public welfare; Dr. John E. Davis, commissioner of mental health, and David R. Baldwin, budget secretary, to discuss the situation.

Department figures also show there are 5,708 attendants and ward supervisors and 867 nurses in the mental hospitals. There 1,545 attendants and ward supervisors and 137 nurses in the state schools for the mentally retarded. No figures were available on the number of kitchen personnel.

The mental health program was discussed by Gov. Lawrence at his news conference Wednesday. He has been inspecting state institutions during the past several weeks.

**"Horrible Situation"**  
Asked if he thought additional taxes would be needed in 1961 to pay for more spending on mental health, Lawrence replied:

"I don't want to get the people around here (in his administration) and in the Legislature thinking of raising taxes unless we just absolutely have to do it."

Later, he noted that despite improvements made in the last five years, "it is still a horrible situation." He said in many cases old buildings need to be replaced or repaired. The state also needs more money, he added, to attract top-flight personnel to handle what was becoming a growing problem, especially in schools for the mentally retarded.

## FAMILIES NEED ADVICE ON AGED

UNIVERSITY PARK, Pa. (AP)—State mental hospitals should take the lead in advising families how to care for their aged, says the superintendent of the Norris-town State Hospital.

Otherwise, these hospitals may find themselves "inundated with patients who do not belong in mental institutions," said Dr. William P. Camp.

He told the ninth annual State Health Conference here Wednesday that at present there is no agency to advise families which of their ill elders can be cared for at home, which ones belong in nursing homes and which ones

need hospitalization in mental institutions.

Dr. Benson Harer of Upper Darby, counsel for the Pennsylvania Medical Society, told the conferees that mandatory retirement at age 65 is "biologically unrealistic and economically unsound."

He said retirement would be worked out on an individual basis, voluntarily and gradually.

VIENTIANE, Laos (AP)—The Laotian National Assembly has unanimously confirmed the new government of Premier Souvanna Phouma.

The ratification of the new neutralist Cabinet was by acclamation under the watchful eye of rebel leader Capt. Kong Le, the paratrooper officer who engineered their ill elders can be cared for at home, which ones belong in nursing homes and which ones

## BATT FAVORS MINIMUM WAGE KENNEDY BILL

WASHINGTON (AP)—William L. Batt Jr., Pennsylvania secretary of Labor and Industry, has urged the U. S. Senate to pass Sen. John F. Kennedy's bill which would increase the minimum wage from \$1 to \$1.25 an hour.

Batt said Tuesday the Kennedy bill would place about five million more workers under minimum wage legislation, including an additional 160,000 or more in Pennsylvania. He was in Washington seeking support for the bill.

He said states are competing with each other for new or expanded industry. "A good minimum wage at the national level means that everybody plays under the same rules," he said.

### Public Interest

Batt said he believes the bill now before the Senate in the interest of all "high standard states" to support "their own standard of living in competition with other states, particularly in the South."

He said Sen. Joseph S. Clark (D-Pa.) "promised to go down the line for the bill which he co-sponsored," and that Sen. Hugh Scott (R-Pa.) favors the bill but was noncommittal on some of the amendments the Senate is voting on.

Batt said he was glad both Pennsylvania senators voted against Sen. Spessard L. Holland's (D-Fla.) amendment to limit Labor Department powers with regard to farm labor. That amendment was rejected 56-42.

The secretary said labor bills passed in Pennsylvania during Gov. Leader's and Gov. Lawrence's administrations meant a wage boost for 350,000 women and minors. He said adult male workers are not covered under state legislation and labeled this "rank discrimination."

### New Coverage

The Kennedy bill would raise the \$1 minimum wage to \$1.25 in three steps and also bring under the law about five million additional workers.

The bulk of the new coverage would be in large-size retail and service establishments. These are fully exempt now. Most of the opposition to the bill is directed against the coverage provisions.

Pictured first row, left to right, are: John Kendall, New Concord, O., director of the Music Department of Muskingum College and authority on the Japanese Suzuki youth technique of instruction; Samuel Applebaum, Newark, N. I., public schools and author of many books including "Visualized Violin Technique."

Standing, left to right, are David Wells, Princeton, N. J., of the Manhattan School of Music, a cellist, and Murray Grodnor, Bloomington, Ind., of the faculty of the University of Indiana and for many years a member of the NBC Symphony. (Times Photo)

Holland would eliminate from the bill all coverage of retail stores, hotels, restaurants, laundries and other service establishments. He would leave in sections which would bring under the law 280,000 seamen, local transit employees, fish processing workers and telephone switchboard operators.

After the vote on the Holland proposal, Senate Republican Leader Everett M. Dirksen of Illinois planned to call up a substitute for the entire bill.

This would raise the minimum to \$1.15 and include new coverage of about three million, he said. The Eisenhower administration has proposed these figures.

The Democrats said they were confident the Dirksen proposal could be defeated.

## HOUSE RULES GROUP STALLS MAJOR BILLS

By WILLIAM F. ARBOGAST

WASHINGTON (AP)—The chairman of the House Rules Committee disclaimed Wednesday any intention of using his position to block major legislation during the current session of Congress.

"I am available," Rep. Howard W. Smith (D-Va.) told a reporter. "No one has asked for a meeting."

Without a meeting of Smith's 12-man committee, several of the

most controversial legislative matters of the session cannot be disposed of. The committee of eight Democrats and four Republicans controls the flow of legislation to the House floor.

### Blocking Action

Currently the committee is blocking action on a school aid bill and a housing measure. Both the Senate and the House have passed school bills, but in different form. A conference committee cannot work out a compromise until the Rules Committee gives the go-ahead.

The last time the committee considered letting the school aid bill go to conference, a 6-6 tie vote stopped it, with all four Republicans opposing the conference clearance.

## HOLD 2 YOUTHS FOR ROBBERY

NEW YORK (AP)—Police have charged two youths from Pennsylvania with robbing a woman vis-

itor near Times Square. The youths, on a hitchhike trip to Massachusetts, were broke.

Charged with assault, robbery, and illegal possession of weapons were William Buckley, 20, of 111 Laurel Lane, Broomall, Pa., and William Barrett, 19, of Spring Valley Dr., Media, Pa.

Police said they roughed up and robbed Mrs. Grace Faust of 231 Chenango St., Binghamton, N. Y., as she was strolling at Broadway and 48th Street Tuesday night. One allegedly twisted her arm until she dropped her purse containing \$77. Drawn by her screams two patrolmen chased the fleeing youths with drawn guns but with-

held fire for fear of wounding theater goers.

One patrolman brought Barrett down with a flying tackle. The other caught up with Buckley and seized him. Each youth had a hunting knife, police said.

## SUFFOCATES IN MOLASSES TANK AT YORK

YORK, Pa. (AP)—A former Berks County man suffocated Tuesday when he went to the aid of a fellow workman who blacked out inside a huge molasses tank. Richard Kline, 21, of Red Lion R. 1, was dead on arrival at the York Hospital. He was the son of Mr. and Mrs. Rudolph Kline of Hamburg R. 2.

Wayne Holtzapfel, 22, of York R. 1, was listed in satisfactory condition at the same hospital.

York County Coroner Thomas M. Hart said the two were preparing to clean the nearly empty tank at the Eastern State Farmer's Exchange.

### Going After Tool

Holtzapfel dropped a tool in the tank and went in to retrieve it. He passed out and Kline went to his rescue. Kline also blacked out. A third workman started into the tank, but retreated when the fumes began to affect him also.

Firemen wearing gas masks brought the two out of the tank within 15 minutes, Hart said.

The coroner said the molasses fumes had a high sulphur content.

Church Changes Style To Lure Sunday School Goers

LANCASTER, Pa. (AP)—Jesus and His Disciples were portrayed in highly unconventional portraits today as modern figures clad in casual shirts and clam-digger type slacks.

And there are many other bold departures from the traditional images, which show the Master and His men in flowing robes or long loose tunics of antiquity.

In the old style pictures the beards of Christ and his followers are full and of classical contours; the hair falls nearly to the shoulders, or is luxuriant mane. Now the beard is slight, hardly more than a tuft, and the hair is no longer than that of the popular notion of an esthete.

**Lure Children**  
It is all part of an ambitious program by the United Church of Christ to make Sunday School more interesting to children, to make Bible pictures come alive.

Church leaders have spent eight years and a million dollars on the development of the new curriculum. The first unit, for children three to six, is being previewed—with classes testing the new ideas—at a workshop sponsored by the Pennsylvania, New York and Potomac Synods of the Evangelical Reformed Church and the Congregational Christian Conference of Pennsylvania. The United Church of Christ was formed by the union of the Evangelical and Reformed Church with the General Council of the Congregational Christian Churches.

**Have New Look**  
The Old Testament prophets and patriarchs, the kings and the psalmists, also have a mid-20th century look in this new approach to religious education. Bible stories are retold in nursery rhymes fashion. Here is the simple, down-to-earth way of leading the quite young into the wonder of the Nativity:

"The cow munches hay;  
The horse stomps his feet in his stall.  
And the gray donkey watches them all.  
That's how it was the first Christmas."

The pictures of Bethlehem, of the crowded inn and of the stable steamy from the breath of cattle and sheep, are in keeping. There are no wise men bearing gifts, no flights of angels. The accent is on the manger, the domestic animals. That is because children grow up with gentle animals, make them a part of their lives. Thus the children are made to feel more personally involved in the stories.

WOMEN'S VOTE COULD DECIDE IN THIS STATE

By HERB LINNEN  
HARRISBURG (AP)—Pennsylvania's political parties are about to make a big pitch to attract support among women voters in the Nov. 8 election.

Democrats have scheduled meetings in 12 cities between Labor Day and Sept. 17 to push their voter registration drive. The deadline for registering is Sept. 19. Republicans are naming coordinators in each of the 67 counties to lead similar campaigns.

**Million Unregistered**  
Party leaders feel strongly that the women's vote could very well decide an election in which both presidential candidates — Republican Richard M. Nixon and Democrat John F. Kennedy—have demonstrated that they have substantial appeal with the disaffiliated.

Miss Genevieve Blatt, state internal affairs secretary and secretary of the Democratic State Committee, estimated today there are about 1,113,386 unregistered women voters in Pennsylvania.

Her figures showed that as of last May's primary there were 1,299,037 women registered Republican and 1,246,441 registered Democratic. This compares with 1,266,516 men registered Republican and 1,295,096 men registered Democratic.

Miss Blatt, the first woman in the state's history to be elected to a statewide office, said meet-

Sen. Humphrey Says Red Friction Grows

WASHINGTON (AP)—Sen. Hubert H. Humphrey (D-Minn.) said today he sees growing friction between the Soviet Union and Red China, but no likelihood of any early split between them.

In a prepared Senate speech Humphrey said all this must be considered in shaping this country's foreign policy. He is a member of the Senate Foreign Relations Committee.

The Senator said bonds between the Soviet Union and Red China are much stronger than their differences born of long-standing mistrust, prestige rivalry, population pressures and troubles over interpreting the Communist party line.

"It would be wishful thinking to conclude that the two Communist giants are going to split any day," Humphrey continued. "Nevertheless, it would also be foolish to ignore the fact that tensions do exist and that they seem to be increasing rather than diminishing."

ings have been set up by Mrs. George Sloan of Clarion, candidate for state treasurer and president of the State Federation of Democratic Women's Clubs. Mrs. Sloan is working with Mrs. Louise M. John of West Chester, State Committee vice chairman.

\$350,000 FIRE HITS LANSFORD RECORD BLDG.

LANSFORD, Pa. (AP)—Fire destroyed the three-story Lansford Record Building Wednesday and damaged an adjoining structure. The loss was estimated unofficially at over \$350,000.

Herman Lazurus Jr., general manager of the newspaper, immediately announced plans to continue publication of the newspaper, using temporarily the presses of the nearby Tamaqua Evening Courier.

The afternoon Record has a circulation of about 5,000, mainly in the Panther Valley anthracite towns of Lansford, Summit Hill, Coaldale and Nesquehoning.

**None Injured**  
No one was injured in the fire, which was smoldering on the third floor of the brick building when employees reported for work at 7 a. m. and discovered it.

Fire Chief Norman Tippet of the Lansford volunteer company said the cause was not known. He said it possibly could have been started by a cigarette.

The three-story brick Hall building next door, which contains a funeral parlor, a restaurant and two apartments, was badly damaged by fire, smoke and water.

A volunteer fire company from Coaldale aided the Lansford men. Three companies from Tamaqua were on call if needed. The fire raged out of control for more than two hours before the flames were contained.

The Lazurus interests, which also own the Bayonne (N.J.) Times, purchased the Record about five years ago.

## TWO WORKMEN ELECTROCUTED

PITTSBURGH (AP)—Two men were electrocuted and two others were burned Tuesday when a crane cable hit a 2,200-volt power line in Pittsburgh's Lawrenceville district.

Killed were William Peterson, 20, of Mount Pleasant, Texas, and James E. Hill, 35, of Blairsville, R. 2.

Oliver Woodring, 42, and his son, Arnold, 18, both of Pitcairn, were hospitalized in fair condition with burns.

The men were drilling a hole for the construction of a parking garage. A foreman on the job said Peterson apparently was being hoisted from the hole by the cable. When the three men grabbed for him, the cable struck the power line.

Police used resuscitators on the injured before taking them to the hospitals. Peterson and Hill were killed instantly.

## ASK HOSPITAL FOR ADDICTS OF NARCOTICS

UNIVERSITY PARK, Pa. (AP)—Two judges with years of experience handling the illegal narcotics problem have urged construction of a state hospital for the treatment of addicts.

Judges Henry Ellenbogen of Allegheny County and David Ullman of Philadelphia also strongly urged compulsory hospitalization of the known addicts.

Their views highlighted a panel discussion on narcotics laws Tuesday at the ninth annual State Health Conference.

**Urges Control Program**

Judge Ellenbogen, former member of the U. S. Narcotics Bureau's Advisory Committee and the United Nation's Opium Committee, recommended a statewide narcotics control program. In addition to stepped up treatment for addicts, it would include stiffer laws with stricter penalties and enforcement against those dealing in the illicit drug trade.

Judge Ullman, chairman of the Governor's Committee on Rehabilitation, suggested all addicts be committed to a special hospital for a minimum of two months. Treatment would include psychiatric care and vocational rehabilitation.

Dr. Joseph Adlesstein, director of the state's Behavior Problems Division, said the Legislature has not provided funds asked for special treatment of addicts.

## BOYLE LISTS MEDICAL ILLS OF MODERN ERA

By HAL BOYLE

NEW YORK (AP)—There are at least 365 recognized medical ailments, one for each day of the year.

But in the modern U.S. business world there are a number of other diseases science has never named. They probably cause more lost time and wasted motions—and perhaps more ulcers—than all the illnesses mentioned in a medical dictionary.

Here are a few of these mysterious maladies you can probably find in your own office:

**Monday Pneumonia**

"One-day pneumonia" — Familiar to every personnel director as a synonym for a hangover. Usually strikes on Monday. Victim makes miraculous recovery during day and shows up Tuesday morning chirping like a bluebird.

"Afternoon sickness" — Patient has three martinis and a parfait for lunch. Snores at desk until quitting time.

"Petty cash aphasia" — The new office boy suddenly trembles and

becomes speechless when questioned about \$3.58 shortage in the stamp drawer.

**Daily Doubtitis**

"Daily doubtitis" — A gnawing compulsion by employee to go to nearest pay phone to call bookie each afternoon shortly before start of first race at nearest horse track.

"Foot-in-mouth disease" — The junior executive who compliments the boss on his 64th birthday by saying, "Just one more to go, eh chief?"

"Sinecure syndrome" — The state of utter panic experienced by the office goof-off when he learns the firm has hired an efficiency expert.

**Morning Stupor**

"Morning stupor" — A cerebral haze which grips approximately half of entire staff until they get 10:30 a.m. coffee break.

"The 5:15 p.m. myopia" — This malady makes it impossible for the stenographer to discover any misspelled words in any letter she finishes just before quitting time.

"Post-vacation trauma" — Characterized by a vacant look and an inability to settle down into the old rut. Usually disappears after a week or two. If it doesn't, the employee disappears.

Mt. Whitney, the highest point in California, and Death Valley, the lowest point, are only 85 miles apart.

"Who takes all those pills?"

This is often the question when a customer sees the shelves in our pharmacy. Row on row on row of bottles, boxes, canisters, tubes, vials, jars . . . about 2,000 items in all. Good question. Who are they for? The answer, of course, is you. Say you go to a physician and he writes a prescription which you bring to us to be filled. We can't tell what the ailment will be—there are thousands, and we don't know what medication the doctor will prescribe. To provide prompt pharmaceutical service we have to be ready for just about anything. Which we are.

## Experts Disagree On Signs Of Business Upturn Soon

By SAM DAWSON  
NEW YORK (AP)—With the third quarter of the year just past the halfway point, business today is totting up:

1. How much of a lull the summer has brought in industrial and trade activities.
2. How strong are the signs of a business upturn in the fall.

**Question Rebound**  
At the midway point the best answers seem to be: The summer lull was just about what was expected in most fields subject to this seasonal cycle and also in those going through their own individual recessions this year. But most signs of a strong rebound are either lacking or delayed beyond expectations or hopes.

On either side of this view are the optimists and the pessimists. Both are offering predictions freely, some based on current statistics and some on guesses on what the current lull is building up to. Those who think that 1960 has seen its worst days and that the year will go down in the books as a short readjustment to reality after over-enthusiastic hopes, make these points:

**Steady Production**  
Industrial production held steady in July. The Federal Reserve Board's index was two points below its record high of the first of the year, but one point better than a year ago. This could mean it has hit bottom for this cycle and is ready to move higher as industry gets going in the fall.

Employment has climbed to a new high, even if four million persons are still out of work.

Consumer spending has stayed high—strong buying in the non-durable fields offsetting a lull in durable purchases.

**Credit Easing**  
Money and credit are getting easier, laying the groundwork for a pickup in business and consumer borrowing, when and if the businessman and his customers decide to step up their activities. But happy as they are that the downturn that started in the early spring hasn't developed into a steep slide, many are unconvinced that the present situation foretells much of an upturn in the fall.

**Deterrants Listed**  
They note these deterrants: The stock market shows no signs of expecting a new boom. And the market has a big effect on public thinking.

The profit squeeze holds businessmen back from making expansion plans. Even though pushing sales into record high ground, many companies have reported lower earnings. And a sizable number see little hope of a quick reversal of that trend.

Factory orders for durable goods were expected by many to have turned up before this. The delay is making many businessmen nervous.

## PUC REVERSED BY ICC RULING ON RAIL CASE

HARRISBURG (AP)—A Public Utility Commission spokesman said that there is "serious doubt" whether the agency can seek reversal of a federal ruling allowing a termination of two daily trains between Harrisburg and Williamsport.

On Monday the Interstate Commerce Commission ruled that the Pennsylvania Railroad could end service on the passenger trains, known as the Susquehannocks, because they operated at a loss.

The PUC, which had turned down PRR proposals to end the service in July 1959, intervened in the case when the railroad took it to the federal agency.

### PUC Spokesman

"There is serious doubt that there is anything further we can do," the PUC spokesman said. He explained that the commission's position legally was that of an intervenor in the ICC case. Actually, the railroad claim had been formally opposed before the ICC by the railroad unions.

The legal question involved is whether an intervening party in such a case has authority to appeal.

The spokesman said the full commission probably would discuss its future action on the case at its regular meeting next Monday afternoon.

The trains served the two terminal cities and seven intermediate points. One train left Williamsport in the morning for the capital and the other made the return trip in the evening.

## STATE FUNDS NOT NEEDED IN COAL TEST

HARRISBURG (AP)—Research to develop coal-based road paving material has reached a point where Pennsylvania's financial participation is not required, state officials report.

As a result, Atty. Gen. Anne X. Alpern said Tuesday, the Commonwealth will save the entire \$150,000 appropriated by the Legislature for participation in the research.

Lewis Evans, state mines secretary and chairman of the Coal Research Board, said the money is now available for other projects.

Miss Alpern and Evans announced the news after a meeting with officials of the Peabody-Wright Corp., which is successor to Curtiss-Wright Corp. in ownership of the coal-binder process.

### Being Evaluated

"We have been advised that the binder material has been developed to a point where participation

## State Prepares For Icy Highways

HARRISBURG (AP)—Ice-coated highways are getting plenty of thought from the State Highways Department these warm August days.

The department said Tuesday plans are being readied for the purchase of nearly five million dollars worth of abrasives to combat ice and snow this winter.

It said \$3,262,780 will be spent for 1,450,125 tons of sand, cinders and crushed stone. It has ordered 21,255 tons of calcium chloride costing \$900,000 and 60,221 tons of salt costing \$800,000. An additional \$5,810 will be spent on anticaking compound, the department said.

## RED SCIENTIST PRAISES U. S. SPACE PROBE

STOCKHOLM, Sweden (AP)—A leading Soviet astronomer says American radar contacts with Venus and Mars are paving the way for the first space flights to the two planets.

Prof. Alexander Mikhailov, 72, head of the Pulkovo Observatory near Leningrad, praised American research methods to prove the position of the two planets nearest to earth.

Mikhailov told a reporter Tuesday that the problem of finding the correct position of Venus is one of the main obstacles for sending an automatic space vehicle in an orbit around that planet.

### Life Dream

English-speaking Mikhailov said such a space probe with a camera and television-equipped space vehicle was his life dream.

He said that only when the exact relations between the planets—the earth and Venus or Mars—had been established could it be possible to launch a space vehicle and steer it in a circle around those mystery-shrouded heavenly bodies.

Mikhailov and other leading space scientists are here for the 11th International Astronautical Congress.

by the coal research board is not required," said Miss Alpern, adding:

"We haven't spent any of it (the \$150,000) because we never had a contract to protect the Commonwealth's interest."

John A. McManamin, vice president of Peabody-Wright, said the material has been tested in Kentucky. He said he hoped to have test programs in other states.

"The final evaluation of the Kentucky highway test program is now being made," he said.

## QUIGLEY ASKS AEC TO CHECK POWER PLANT

WASHINGTON (AP)—Rep. James M. Quigley wants "to make certain the issue of public safety is squarely raised and determined" before a license is granted for an atomic power plant in York County, Pa.

Quigley, a Democrat whose congressional district includes the county, asked for permission Tuesday to participate in an Atomic Energy Commission hearing to determine whether a license should be issued for the plant.

It would be an experimental plant built by the Philadelphia Electric Co. at Peach Bottom, Pa.

### McCone Letter

In a letter to Chairman John A. McCone of the AEC, Quigley said he would appear "in the public interest to make certain that the issue of public safety is squarely raised and determined before construction starts."

Philadelphia Electric applied for a construction permit on July 25. Under present procedure, the AEC considers the safety factor during all phases of planning and building an atomic power plant. But it does not make a final determination on safety until a license to operate is applied for—after the plant is constructed.

Quigley's letter referred to a U. S. Court of Appeals decision setting aside an AEC construction permit for a nuclear power plant near Detroit. The court ruling said the commission had not given sufficient consideration to the safety factor of operating a plant so close to a large city.

The Supreme Court has been asked to review the decision.

Quigley noted that Peach Bottom is within 60 miles of Washington, Philadelphia and Baltimore. In his letter, he asked if the AEC agreed with the appeals court decision or planned to continue its present procedure.

### 3 DIE IN CRASH

PITMAN, N. J. (AP)—An auto missed a turn on a bend and it crashed into a house Wednesday, killing three Chester, Pa., youths and injuring two others.

Killed were the driver, Earl Rogers, 21, (1809 Front St.), an Army private stationed at Ansonia, Conn., who was home on leave; Robert Handy, 18, (229 Dock St.), and Major Williams, 19.

### WEEKENDS IN JAIL

POTTSVILLE, Pa. (AP)—William Dickowski, 32, of Bowmans, Pa., will serve his 15-30 day jail term for larceny on weekends. Judge Charles W. Staudenmeier of Schuylkill County Court Tuesday gave Dickowski permission to do this so he wouldn't miss work at Bethlehem, Pa.

## Eisenhower Favors Action By Congress On Aged Care

WASHINGTON (AP) — In discussing his legislative requests at his Wednesday press conference, President Eisenhower said he did not want to list any priorities in his 21-point program.

Then he said he does think, however, there should be action now on a program of medical care for the elderly. Something ought to be done now because these people need aid, he said.

Eisenhower was asked his view of a Democratic proposal to finance such medical care through social security taxes. Eisenhower said he wants a plan that is truly helpful to the aged but one they can freely accept. He said vigorously that he is against compulsory medicine.

A reporter suggested that a bill reported by the Senate Finance Committee, which would not levy new social security taxes, would put a drain on the Treasury whereas the Democratic plan would be on a pay-as-you-go basis. Cost Not Important

The President replied that he doesn't care if it would cost the

latter. He said he himself didn't admit that he had made any errors.

CONGO—Conditions are deplorable in the Congo, the President said. But, with a comment that these things are not always easy. He added that on the whole the U. N. record of accomplishments in the past gives a great deal of promise that it will be able to handle situations such as this.

LATIN AMERICA—No nation is wise enough to foresee all the needs and to create a Marshall Plan for Latin America, the President said. He said the Marshall Plan had the specific purpose of rebuilding a damaged and destroyed industrial fabric in Western Europe. Such a program could be terminated, he said, but when you are dealing with the problem of trying to raise living standards, as is proposed for Latin America, there is no foreseeable end.

But Eisenhower said, if all the nations will put their brains and resources together we will get somewhere.

GOVERNMENT JOBS — Eisenhower said no great number of men are leaving the government because his term is drawing to a close. He said one of his own staff members had accepted another job with his blessing, but

there was no great number of resignations.

NUCLEAR TESTS—The United States is working hard to achieve an East-West agreement to ban nuclear testing. He said nothing would please him more than to get an agreement that would give peace of mind to people on both sides, but he indicated he did not see much chance an agreement could be reached before the end of his administration in January.

## POWERS WINS SYMPATHY OF WEST EUROPE

By DENNIS NEEDL

LONDON (AP) — The courtroom conduct of U2 pilot Francis Gary Powers on the first grueling day of his Moscow trial won him the sympathy and even admiration of many of West Europe's newspapers. They pictured the young American flier as a luckless casualty in the cold war.

Many West European observers also felt the early pattern of the espionage trial confirmed their opinion that the whole thing was

there was no great number of resignations.

Another Danish paper described the trial as "a big Soviet propaganda show with a small super-numerary in the leading role." Il Messaggero, Rome's biggest independent morning paper, termed the trial a "sad comedy." Its front-page editorial declared: "The Powers trial is not a legal process. It is a show."

France's independent Parisien

carried its report under the headline: "Powers does the best he can before the Soviet judicial machine."

Most newspapers, including many with their own correspondents attending the trial, were convinced there had been no attempt to brainwash Powers.

Britain's Daily Telegraph said Powers was in the unprecedented position of a secret agent who had been acknowledged by his principals.

"Given this fact, and assuming he was right in assisting the court at all, the American pilot was magnificent," the Conservative newspaper said.

All over Western Europe reports of the trial were carried under banners in big type stretching over several columns.

"Powers confessed quietly and with dignity," said the headline of a Copenhagen newspaper.

## Congo Premier Proclaims Martial Law For 6 Months

By LYNN HEINZERLING  
LEOPOLDVILLE, the Congo (AP)—In a new defiance of the U.N. command in the Congo, Premier Patrice Lumumba has proclaimed martial law for six months.

It was not clear what effect the volatile premier's latest maneuver would have. He proclaimed a state of emergency last week, and Tuesday armed Congolese troops and police searched living quarters of Belgians and U.N. personnel, arrested some Belgians and detained some U.N. personnel briefly.

However, U.N. Secretary-General Dag Hammarskjold and the U.N. command showed no sign of bowing to Lumumba's demand that the U.N. forces be used to establish his government's authority over dissident Katanga province and other sections of the sprawling nation that show signs of wanting local autonomy.

Along with his proclamation of martial law, the Congo premier angrily accused the U.N. forces of failing to carry out their duties

and making martial law necessary to meet the crisis in his chaotic country. He demanded the immediate withdrawal from the Congo of the Swedish contingent of the U.N. force whose loyalty to Hammarskjold's orders is unquestioned.

Hammarskjold, who fled back to New York Tuesday night to ask the Security Council how the U.N. Congo command should meet Lumumba's growing hostility, refused to comment on the martial law declaration. The council is expected to meet Thursday on the Congo situation.

**Reds Disagree**  
Hammarskjold was handed a communication from Soviet Deputy Foreign Minister Vasily Kuznetsov voicing disagreement with the secretary-general's interpretation of U.N. neutrality toward the dispute between Lumumba and Katanga Premier Moise Tshombe. The Soviets have made plain they think the U.N. force should carry out Lumumba's wishes and subdue the rebellious provincial government.

## Strike Threat To Close Five Mills

PITTSBURGH (AP)—The U.S. Steel Corp. is preparing to shut down five mills in the face of a threatened strike against a railroad serving the plants.

Some 50,000 steelworkers would be idled by a strike.

The United Steelworkers Union, representing 1,150 tower operators, clerks and maintenance workers, has served notice it will strike the union railroad Thursday if a contract dispute is not settled.

The railroad hauls raw materials and steel between the company's Duquesne, Homestead, Edgar Thomson, Irvin and Clairton works.

The Belgian radio reported that a 20-mile-long column of native men, women and children was fleeing from Lulubourg, capital of Kasai province, where the rival Lulua and Baluba tribes are locked in bloody warfare. The broadcast said a special investigating committee of the central Congo government had reported that arrival of U.N. troops in the province had failed to end the tribal blood bath.

## TV CONVERTS SISTER EILEEN INTO NEW SHOW

By CYNTHIA LOWRY  
AP TV-Radio Writer  
HOLLYWOOD (AP)—One of the most durable literary properties of the past 20 years is being converted to television.

In the case of "My Sister Eileen," this means that writers are using the names of the principal characters—sisters Ruth and Eileen—and the basic situation: Two young girls on their own in New York. But the time has been pushed forward from the '30s to the present, and none of the material from the original will be used.

Ruth McKenny's funny tales of her early New York adventures started out as a series of reminiscences and a magazine. These were subsequently collected between hard covers and became a best-seller. Later the collection was a hit Broadway show, then moved on to become a hit Hollywood movie. A few years ago it was made into a musical show.

"Wonderful Town," which ultimately became a TV spectacular, a word which definitely dates the production.

**History Skipped**  
It is noteworthy that none of the publicity about the show, due to turn up on CBS in early October mentions the name of the author or even its long and rather glorious history.

It's a cinch, however, that Elaine Stritch, the tall, blonde lady clown who is playing Ruth, has been thinking about the show's history.

In previous incarnations, Ruth has been played by Shirley Booth on the stage and Rosalind Russell in the film and in the musical. Comparisons naturally are inevitable, and Miss Stritch fervently hopes they will not be odious.

**New To TV**  
Elaine, a comparative newcomer to TV, has had a lot of Broadway experience. She has been seen on TV in guest shots, and the pilot film for the current series has been shown twice on summer comedy show series.

Eileen is being played by Shirley Bonne, a very pretty blonde girl who less than two months ago was a model. She tried out for her first acting role on June 28, had a screen test two days later and won the role on July 5. Now Shirley is learning to act and starring at the same time.

## CRANBERRY DRIVE IN FALL

HANSON, Mass. (AP)—An executive of the Ocean Spray Cranberry Co. said today the industry plans a record advertising campaign for the fall of 1960 as part of what he termed a "recovery program."

Ambrose E. Stevens, executive vice president and general manager of Ocean Spray told the 30th annual meeting of stockholders that last year's so-called "cancer scare" has worn off.

Sale of cranberries dropped last fall after a statement by the U. S. Department of Health, Education and Welfare that laboratory tests showed a weed killer used on cranberry bogs may have been the source of thyroid cancer in rats.

Stevens said the industry has experienced "considerable improvement of the consumer attitude toward cranberries against what they were last November and December."

He said that the record promotion campaign will start in October and run until Christmas.
